

Executive Productivity Agent

From Conversations to Clarity – Your AI Partner for Action

Turn Information into Actionable Outcomes
Track. Prioritize. Clarify. Get Things Done.

1. INPUT SOURCES

Real-world executive data from multiple communication channels

Emails

(commitments, action items, follow-ups)

Meetings / Chats

(Teams/Slack updates, discussions)

Documents

(reports, vendor lists, contracts)

Calendar

(deadlines, scheduled calls)

People & Entities

(team members, vendors, stakeholders)

2. DATA PROCESSING PIPELINE

Transform unstructured data into structured, actionable insights

Data Ingestion

Extract and collect data from all sources

Parsing & Information Extraction

Identify tasks, commitments, dates, owners, and context

Deduplication & Normalization

Merge similar items and standardize format

Classification & Enrichment

Categorize (My Actions / Waiting / Unclear / Completed) and enrich with metadata

Store Structured Data

Save in database for retrieval and analytics

3. AI ENGINE (GOOGLE GEMINI)

Reason, analyze, and generate insightful responses

Prompt Orchestration

Use structured data and grounded context

Reasoning & Generation

Answer user queries, summarize, analyze, and provide recommendations

Grounded in Source Pack

Ensure responses are accurate, traceable, and based only on provided data

4. DATA STORAGE

Persistent storage for commitments, actions and metadata

SQLite (Structured Data)

- Actions & Commitments
- Owners & Deadlines
- Status & Metadata

Vector Store (Embeddings)

- Semantic Search
- Context Retrieval
- Improved Q&A

5. APPLICATION LAYER

Interactive web application for executives

0

Fulfilled this week

CRITICAL UNCLEAR OWNERSHIP: Sign-off on Mumbai Office Lease Renewal (Unowned Signatory)

Deadline: Friday 25 Sep, End of Day

Ground Reality: Deadline is Friday 25 Sep EOD. Still completely unassigned and unowned. High business risk.

Recommended Action: URGENT: Use Friday 10:00 AM Facilities Check-in to formally assign a designated signatory or escalate to Executive/Legal today.

What did I promise Raghav?

AI Icon

You promised to send the updated vendor list to Raghav by Tuesday, 22 September 2026. This was discussed in the Leadership Sync meeting.

7. DEPLOYMENT ARCHITECTURE

Scalable, secure, and reliable deployment on Vercel

User (Browser)

Access the application

Vercel (Hosting)

- Frontend (React + Vite)
- Backend (Serverless Functions)

API Layer

Handles requests and integrates with Gemini

Google Gemini API (LLM Inference)

Generates grounded responses

Database (SQLite / Vector Store)

Stores and retrieves data

Key Features

- ✓ Daily executive briefing
- ✓ Commitment tracking
- ✓ Unclear ownership detection
- ✓ Natural language Q&A
- ✓ Source-backed responses
- ✓ Secure and scalable on Vercel
